Wrentham Bride To Live At Readymade

Marriage vows were exchanged on Saturday April 24th at 2 pm when Barbara Jean, daughter of Mr and Mrs. Chris Brantner of Wrentham became the bride of George Joseph Virginillo, son of Mrs and Mrs Nick Virginillo of Readymade. The ceremony took place in St. Patrick's Catholic Church in Lethbridge, with Rev. Father Wilfred Malloy officiating.

The bride, given in marriage by her father, was radiant in a gown designed with a french lace bodice and nylon net skirt with lace panelling and inset over a full billowy crinoline slip. Her headress was a sweet heart bridal halo trimmed with seeded pearls. It held her fingertip veil of illusion net and she carried a cascading bouquet of deep red roses and calla lilies.

Ruth Muelles as matron of honor wore a gown of mauve net over taffeta with a half crown calot headress, and carried a nosegay of spring flowers.

Bridesmaids were Joanne Yanosik and Irene Joza, wearing green and yellow respectively and carrying nosegays of spring flowers.

The flower girl was Joanne Brantner sister of the bride, in salmon taffeta with net overskirt.

Ring bearer was Douglas Muller, wearing navy blue trousers and a white shirt.

The wedding music was played by Mrs Oscar Mueller.

The groom was attended by Tony Virginillo, Jerry Virginillo, and Charles Brantner.

Ushers for the occasion were Lloyd Brantner and Victor DAndrea.

During the signing of the register, Lowell Holacher sang "Ave Maria".

In the evening a reception was held at the Marquis Hotel with about 160 guests sitting down to a hot turkey supper.

In the receiving line were the parents of the bride and groom. For her daughter's wedding, Mrs Brantner chose a tailored grey afternoon frock with red accessories, while Mrs. Virginillo chose an aqua blue afternoon frock with navy accessories. Both wore corsages of red roses.

The bride's table featured a beautifully decorated three tiered wedding cake.

Miss Phillis Silingsby was in charge of the guest book while Carol Sprinkle and Barbara Anderson were in charge of the gift table.

Rome Mueller acted as master of ceremonies and proposed the toast to the bride to which the groom responded.

For their honeymoon to Great Falls, the bride changed to a Teal Blue gabardine suit which matched that of her husbands. She wore white accessories and her corsage was red roses.

Guests were present from Wrentham, Warner, New Dayton, Milk River, Coutts, Taber, Grass Lake, Coal Dale, Pincher Creek, Michel, B.C., Cutbank Montana, St Ignatius, Montana, and Moses Lake, Washington.

Rotarians Honor Club President

Tuesday evening a hilarious time was enjoyed by the Rotarians and their Rotary-Annes at a Farewell Party for the Club President Jim Grant and Connie. After the delicious steak dinner Myron Holmes, accompanied by Harry Stevens and Rojanea Bingham led the group in a number of peppy Rotary songs, followed by a presentation of a copper jardeneir to the honorees by Stuart Card who expressed the sorrow of their friends at seeing them leave. Both Mr and Mrs Grant said a few words in reply, though Connie, in view of the fact she is the quiet one of the family, left most of the talking to her husband.

When the tables had been pushed back, and all were seated in a circle, Easter Bonnet of many years gone by were brought out by Harlan Taylor and Max Hamilton, the entertainment committee, and clapped upon the heads of all with exception of one and then the fun began. With Harry Stevens at the piano a new version of musical chairs was played with Mrs Zettella Taylor and Mrs Dorothy Dahl fighting for the last hat.

The Climax of the evening was the snapping of pictures of Mr and Mrs Grant, Mrs Rosemarie Slover and Gilbert Wells dressed in old fashioned clothes. It is doubtful whether Jim and Gilbert would be recognized with their Moustaches and heavy eyebrows.

As the final tribute for the evening to the Grants, Auld Lang Syne was sung with the traditional clasp of hands.

The annual Stampede was the main item on the agenda, with plans being made to make it an even bigger and better show this year. Two additional chutes will be built and the corals enlarged and the committee hope to have Bobby Hill of Mont. in attendance at the Show. In order to encourage a greater number of entries in the Parade the prize money for the various divisions has been doubled.

At the Lions next meeting The Canadian National Institute For the Blind will show a film strip recently put out by them.

When Carl Salmon bought a raffle ticket from Dr. Hall, when he was here last summer, he thought that his money was just a contribution to a good cause—a new church in Vancouver. The other day he was made aware of this error in thinking when a registered parcel arrived from the coast. Upon opening it Carl found that his ticket, No. 610, had been drawn for a lovely ring set. The engagement ring has six diamonds in it and the wedding ring has five—really a beautiful set.

Ye Ed Talks To Foremost B of T

Max Hamilton, publisher of the Raymond Recorder, was the guest speaker at the regular meeting of the Foremost Board of Trade on Monday night.

Mr. Hamilton's subject was "Printing — How It Is Done and Its Effect Upon Civilization" and he traced the history of printing from the cave man down through Gutenberg, who first used moveable type, to Mergenthaler, the inventor of the linotype.

The various pieces of equipment used were shown and their use explained to the rather small but interested group.

At no time did Mr. Hamilton ask for or suggest that the Foremost Board of Trade sponsor the Recorder in the Town of Foremost or the District.

Quite The Conversationalists

Bill said to Tom: "Made your plans yet?"

Tom said to Bill: "Plans for what?"

Bill said to Tom: "For the 1st of July, naturally!"

Tom said to Bill: "Certainly, I'm going to the Raymond Stampede. I'm going to get there early so I can see the Mammoth Parade at ten o'clock and then spend the rest of the day and evening enjoying myself with all the things the various committees are planning. From morning until bedtime there's going to be something to do at this year's Raymond Stampede. You bet! That's the place to be!"

Bill said to Tom: "Sounds as though you have something there, pardner, guess I'll join the crowd at the Raymond Stampede on the 1st of July. If their Parade is as good as I've heard it is I guess maybe I'll take the Mrs. and the kids along too."

Tom said to Bill: "Good idea — we'll see you all there."

Foremost Play Wins Double Honors

Double honors fell to the Foremost Catholic Youth Drama Club when they presented a one-act comedy "The Tangled Web" in the Medicine Hat Deanery Festival on Sunday, April 25.

Great credit is due to this group of ambitious amateurs in the first competitive play. We are especially indebted to the actor-director, John Bednarik who, by his stellar performance won the best actor award of the evening. John dramatically portrayed role of Professor Doolittle to the extreme delight of the audience. The professor was ably supported by the remaining members of the cast which included Miss Jeanette Hofforth capably playing the part of an attractive young jewel thief. The administration of law and justice was well executed by a progressive and inveterate cigar smoking policeman played by George Muza. Pauline Unser with poise and dignity represented the Professor's sister.

It was due to the fine acting of all the characters in this delightful comedy that won the second honor of the evening performance, the Knights of Columbus Trophy. This scintillating production will be staged in Lethbridge to compete for the Bishop Carroll Trophy of Calgary Diocese. We indeed wish them luck in their untiring efforts.

Mrs. Henry Piegrass spent a couple of days in Lethbridge last week visiting a friend, Mrs. Eva McLean.

Feeding Youngsters

If you see that your child gets off to a good start with a big hearty breakfast of fruit, cereal, milk, bread, butter and egg or other substitute, there will be no chance of him robbing the lunch box at recess. A nutritious lunch, an afternoon snack and a good hot meal at night will insure that Junior is getting all the vitamins and minerals he needs for a healthy, growing body.

The cobalt source, consisting of 25 discs of cobalt, each a half millimetre thick and one inch in diameter, is surrounded, except in the forward position by approximately 11 inches of lead. The cone-shaped port in the forward direction is normally filled with mercury (M) to cut off the radiation until the patient is ready for treatment. After the patient is placed in position, the mercury is forced out of the port by compressed air, allowing the rays from the cobalt to reach the patient.

Tips on Touring

By Carol Lane
 Women's Travel Authority

The twins who live near me are the smartest children in the block because their parents have a novel and practical idea about trips.

With a free week-end ahead, the family pours over a map on which circles representing 100 and 200 miles have been drawn, with their home in the centre. If one day is free for a trip, they focus on the area within the small circle, but if two days are available, they consider every thing within the 200-mile circle.

Relaxation and entertainment are the main objectives of each trip, so that comes first, but - and here's the key to the - they pick places where they can make a side trip through an industrial plant, a cannery, a museum, a power plant, college campus or a lumber mill.

These educational side trips take but an hour or two and this family has found a large number of interesting places, just as you'll find in your own area with a little exploring. And the twins pick up worthwhile information on each trip at an astonishing rate.

No wonder they are the smartest children in the block - so are their parents!

Quick Tricks for the Kitchen

Curried Turkey in a Chafing Dish—If you have a wood fireplace, here's a chafing dish meal for a fireside supper (without a fireplace, serve it buffet.) You can use leftover scraps of turkey which you can cut in cubes for creaming. For your sauce, use a can of condensed cream of chicken soup which you thin with a small amount of milk or cream. Add a tablespoon of curry powder and mix well. Heat in your chafing dish. Serve over toast or crisp noodles. Pass a condiment tray—salted nuts, raisins, shredded coconut, chopped hard-cooked eggs, chopped green onions and crumbled cooked bacon.

"But I thought I wired you not to bring your mother home with you," said the husband.

"Yes replied the wife. "That's what she's come to see you about."

Larson and Powelson Appointed Local Clark Homes Dealer

Mr. Birch, Clark Homes Limited branch manager has announced the appointment of Larson & Powelson as their franchised dealer in Raymond and surrounding district.

Mr. Birch stated that there is nothing new or experimental about the construction principals used in building Clark Homes. The same joists, studs, rafters, sheathing, doors, windows and cabinets are used. However Mr Birch pointed out that by combining the technical skill of engineers, draftsmen and designers with the traditional methods of building, a better quality and lower priced home is manufactured in Clark Homes factories. Mr. Birch noted that everything we use in this modern age is produced in mass production for economy and quality.

In further explaining Clark Homes, Mr. Birch explained that every piece of material in a Clark Home is "pre-cut" to fit exactly in place. Doors and windows are factory fitted, ready to nail into place. The complete Clark Home is packaged, labelled and delivered to the building site at a guaranteed price quoted by Larson and Powelson, your Clark Homes dealer. Workmanship and all material is backed by a "complete satisfaction or money refunded" guarantee.

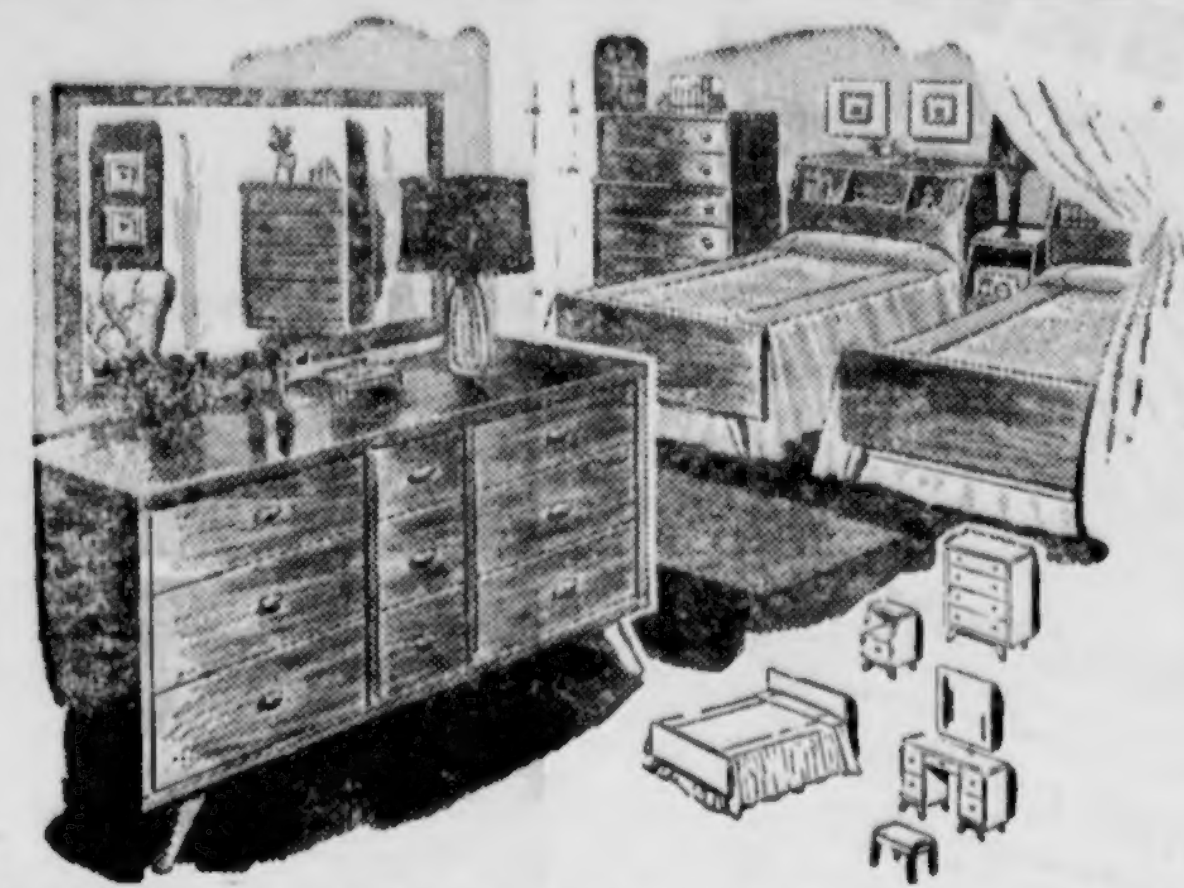

There is no material wastage in a Clark Home. Labor is cut to a minimum as all measuring, cutting mitering and planing is done by the factory. Mr. Birch stated customers have reported savings of over \$2000 on an average-size home.

Larson and Powelson, your local Clark Homes Dealer will assist in every way possible with the building of Clark Homes in this district.

The housewife who wants to save time and electricity, irons in the following routine: rayons and similar materials first, followed by silks and son on finally ending with cottons and linens. (Rayons require least heat, cottons and linens the most)

The Complete Canadian Vacation

Canadians are a lucky people. When summer rolls around they never have to cross borders or leave Canadian shores to find a holiday haven. From the grandeur of the Rockies, past rolling hills, forests and streams, down to the picturesque East Coast, Canada can offer everything vacation-wise. Conveniently located at the best sites

are the Canadian Pacific Railway's summer resort hotels. Hiking and mountain climbing (1) are favorite pastimes at Banff Springs and Chateau Lake Louise in the Rockies. History, tradition of the Old West and a bit of the bizarre are re-enacted during mid-July Indian Days (2) at Banff. Golf (3), whether down east at the Digby Pines in Nova Scotia and the

Algonquin in New Brunswick or a mile high in the Rockies at Banff, is always popular. Swimming and girls (4) are attractions to be found at all resorts, both east and west. If summer heat and hayfever tend to interfere with your vacation plans, the cooling, pollen-free breeze at Lakeside Inn, near Yarmouth, N. S., (5) offer a sure-fire remedy.

Join the Cancer Fight!
By Cecil B. DeMille

Cecil B. deMille, famous motion picture producer and director — creator of the screen's most outstanding films — is an active campaigner against cancer. He is president of the Los Angeles Unit of the California Division, American Cancer Society.

Everyone hates cancer.

But that is not enough.

Hatred, without action against the hated thing, is only a futile and wasteful emotion.

Someone has said that the best way to deal with an enemy is to find his strongest point and hit him hardest there.

Cancer's strongest weapon is ignorance.

We do not yet know all we need to know about cancer's cause and cure.

Many, if not most, of cancer's victims are victims of not knowing how to detect cancer early enough.

The Cancer Society is attacking this deadly enemy on both fronts — through its programmes of research and education.

It is helping doctors speed the work of finding cancer's cause and cure. It is helping people — all of us — know the signs of cancer soon enough to take action against it.

That is why I have enlisted in the Cancer Society for the duration — the duration of the fight on cancer or the duration of my life, whichever ends first.

I have felt cancer strike some who were very near and dear to me. Most people have had the same experience, for most of us have known and loved some one of the "one out of five."

I have watched them suffer and waste away, I have stood by their open graves, you can take the inspiration I do not like to feel helpless. Neither does any one of the millions who have shared this experience with me.

The Cancer Society says to us all, "You need not feel helpless. From those pitiful sufferers, from those open graves, you can take the inspiration to fight the thing that caused that suffering and filled those graves too soon — the inspiration and the dedication to fight it intelligently and effectively, with the threefold attack of Research, Education and Service."

That, at least, is what I have heard the Cancer Society saying to me.

I hope you will hear it too.

CANCER

can be cured

It's possible. It's probable. The big question is... In how many cases? Right now, with present medical knowledge, the number of cancer cures could be doubled.

But we need your dollars... to spread information, to make more detection programs available, to assist doctors, and to aid laboratory workers in the great fight to find more cures for cancer.

We ask your help! There's no time like the present—there's no time to lose. Now is the time to GIVE TO THE CANCER CRUSADE. Give generously when your local canvasser calls or mail your contribution.

Potato for One
A helpful idea I'd like to share with other 'Recorder' readers concerns the baking of one potato for a single person living alone. I bake one frequently, using an asbestos plate the under side of which is metal and placing it over a low flame on top of my stove, with a small pan inverted over it. The potato bakes nicely.

Milestones

Let me grow lovely, growing old
So many fine things do.
Laces and Ivory and gold
And silks need not be new.
There is a healing in old trees
Old streets a glamour hold.
Why cannot I, as well as these,
Grow lovely, growing old?
—Helen Strauss
